

SKU : 109540

For driving in and driving out arbors, bushings, spindles, pins, or for keyway broaching. These simple, yet highly stable C-frame presses are indispensable in many mechanics and repair shops.

- Compact design
- Heavy one piece casting design
- For a wide range of applications

TECHNICAL SPECS

WORKING AREA

Press force	20 kN
Throat depth	220 mm
Workpiece thickness (max.)	400 mm
Ram dimensions	50 mm x 50 mm x 645 mm

MEASURES AND WEIGHTS

Overall dimensions (length x width x height)	0.64 m x 0.37 m x 0.82 m
Weight	163 kg

PRODUCT DETAILS

Base is not included

- For press-fitting and pulling bearings
- Aligning, bending
- Broaching

STANDARD EQUIPMENT

Operator manual

KNUTH on YouTube Information to the point

On our YouTube channel you can find videos for nearly all machines from our program. We show the machines from current deliveries and you get an impression of the handling, the processing quality and the machining performance.

**Are you interested in a machine for which you cannot find a current video?
